Over half of young people in the UK have thought about starting a business. But 70% believe 'not knowing where to start' is a barrier to them following through with their ideas.*

This opportunity is set to change that.

Covering all the things they need to bring start-up ideas to life, they'll even have the chance to pitch their business plan and get expert advice.

Every day, they will join leading professionals and take part in interactive workshops on everything from planning to problem-solving.

Students can sign up individually via our portal.
